

Welcome to **godreiv**

Problem Statement (The Pain Points in the Market)

Commission Fees

Traditional ride-hailing platforms **take high commission fees** (15%-30%) from drivers' earnings.

Lack of driver loyalty

because of unfair revenue splits.

Poor customer service and drivers

Many ride-hailing platforms suffer from **poor customer service and unprofessional drivers**, leading to **low user satisfaction, high churn rates, and negative brand perception**.

Solution (How godreiv Solves These Problems)

Solution (How GoDreiv Solves These Problems)

01

Drivers keep 100% of their trip earnings.

Keep 100% earnings, pay less , No percentage cut from driver earnings.

02

Subscription-based model

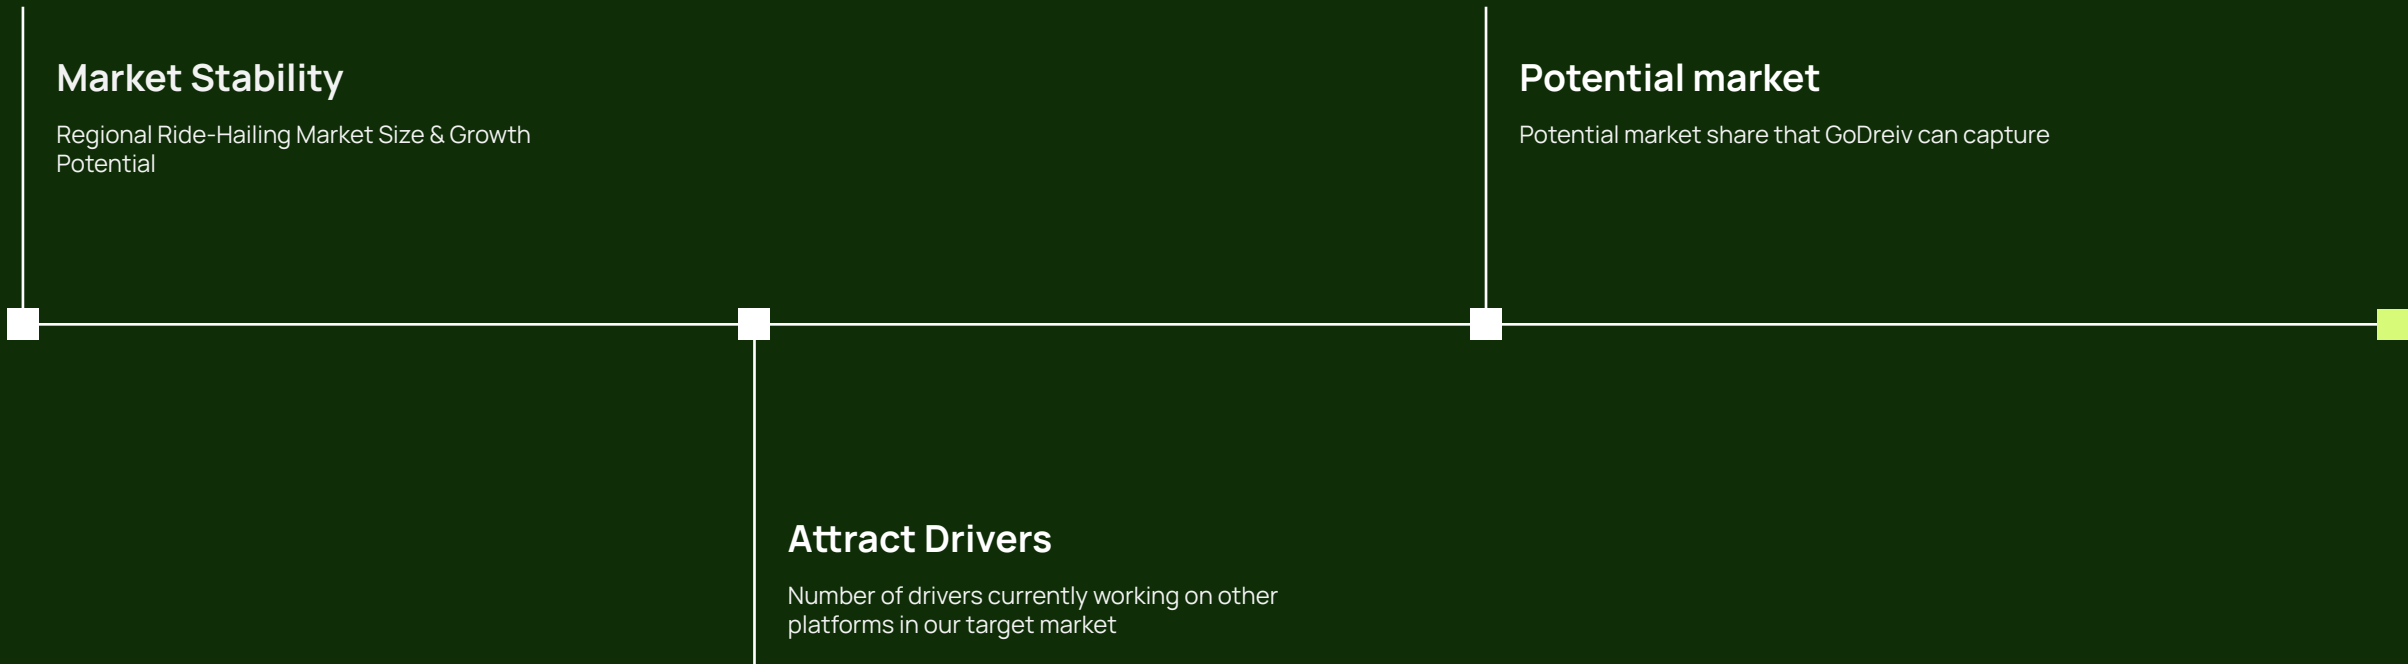

Drivers pay a monthly fee to use the platform.

03

Flat 5 EGP app fee per trip

Unlike competitors taking a percentage cut.

Market Opportunity & Industry Analysis

Market Opportunity & Industry Analysis

Number Of User And Drivers

Expected number of drivers onboarded within 6 months - 1 year

Security Methods

We provide great security methods unlike competitors

Satisfaction

High satisfaction rates based on survey

Additional Revenue Streams (Future Growth Plans)

We provide a very large advertising platform built on our drivers' network, which provides them with another source of income.

In&Out- advertising Platform
